PROFESSIONAL SUMMARY

Game Developer and Gameplay Programmer working in Unity and Unreal Engine 5, with 1.5+ years of full-time experience building 30+ mobile game prototypes and live projects. Shipped two game-jam titles on itch.io with five-person teams, one as lead gameplay programmer. Strong foundation in C#, C++, OOP, and component-based architecture. Adept at system design, creating reusable code, tuning game feel, and optimizing for low-end devices.

TECHNICAL SKILLS

Game Engines & Tech: Unity (URP, UI Toolkit, Cinemachine, DOTween, Timeline, XR), Unreal Engine 5 (UMG, Online Subsystem, Networking)

Programming Languages: C#, C++, Blueprints, Python, JavaScript

Core Competencies: Gameplay Systems, Multiplayer Networking, Mechanics Design, Rapid Prototyping, Game Feel, UI/FTUE

Tools & Workflows: Git, Plastic SCM, Visual Studio, GitHub Copilot, Profiling & Optimization, SOLID Principles

EXPERIENCE

Unity Game Developer

Feb 2025 – Present

Zapplogics Solution

Remote

- Developed **30+ mobile prototypes and live projects**, owning core gameplay loops from concept to rapid validation.
- Engineered efficient, reusable gameplay systems using component-based architecture to accelerate cross-project development.
- Designed UI systems and First-Time User Experiences (FTUE) to improve player onboarding and retention.
- Optimized builds through aggressive profiling to ensure stable 60 FPS performance across a wide range of low-end Android devices.

Salesforce Support / Release Intern

Feb 2024 – Jul 2024

Volvo Car

Bangalore, India

- Optimized release workflows resulting in a 10% efficiency gain and managed access control across cross-functional teams.

AR/VR Developer Intern

Aug 2023 – Dec 2023

Samsung Prism

Bangalore, India

- Built a multi-user VR simulation featuring real-time avatar synchronization and dynamic positioning algorithms.
- Iterated heavily on interactive spatial UI and player comfort settings, delivering stable builds on a strict research timeline.

SHIPPED GAMES (GAME JAMS)

The Cursed Isle of Colchis — Lead Gameplay Programmer

Sep 2026

GBJAM 14 · Team of 5 · Unity, C#, WebGL

nandy1002.itch.io/the-cursed-isle-of-colchis

- Led gameplay programming and wrote most of the code for a Game Boy-style action RPG with real-time combat, multi-phase boss fights and an in-world shop.
- Built within GBJAM's 160×144, four-colour constraints and shipped a browser-playable WebGL build on itch.io.

Beelonging — Gameplay Programmer

Sep 2026

GoedWare Game Jam #17 · Team of 5 · Unity, C#

aha-games.itch.io/beelonging

- Gameplay programmer on a low-poly 3D flying adventure; shipped a Windows build on itch.io within the jam deadline.

PROJECTS

Capture The Flag (Multiplayer FPS)

Unreal Engine 5, C++, Blueprints

Networked multiplayer FPS featuring custom lobby and replicated game state

- Developed a full lobby and session system handling player count, team balancing, and matchmaking transitions.
- Implemented client-server architecture for a replicated flag system (pickup, carry, drop, and return mechanics).
- Engineered a custom GameMode and GameState to manage server-only scoring, timer synchronization, and client HUD updates via UMG.

TicTacTale

Unity 6, C#, DOTween

Best-of-lives duel game adapting classic mechanics with heavy game feel

- Designed a scalable N×N board architecture and developed a coroutine-driven bot opponent.
- Polished game feel using DOTween to implement hitstop, overshoot, and squash-and-stretch feedback for pawn placement.

The Cursed Chaos

Unity 6, C#, AI Navigation

First-person horror exploration prototype

- Built a robust interaction and inventory system for flashlight-led traversal and objective tracking.
- Integrated NavMesh-driven AI pursuit behaviors and Timeline/Cinemachine story sequences.

FPS Inventory System

Unity, C#, UI Toolkit

Modular gameplay prototype

- Developed a modular inventory architecture across 12 decoupled classes handling raycast pickups and cycle logic.

EDUCATION

Master of Computer Applications (MCA)

Sep 2022 – Sep 2024

RV College of Engineering, Bangalore

CGPA: 8.83

B.Sc. Mathematics

Jul 2019 – Aug 2022

The University of Burdwan, West Bengal

CGPA: 8.89
